Tips for printing on-line quotes:

If the quote does not print on a single page, you need to reduce the left and right margins with in your own print settings.

Example: for Internet Explorer users:

File, Page Setup, Margins (set all to .25), OK

If after reducing your print margins the quote still does not print on a single page, you need to reduce the “text size” with in your own browser.

Example: for Internet Explorer users:

View, Text size, Medium

If two pages print, specify to print Page 1 only for future quotes.
